

# Alarm and electronic security systems

**Part 2: Monitoring centres** 

#### AS 2201.2:2022

This Australian Standard® was prepared by EL-031, Alarm and Electronic Security Systems. It was approved on behalf of the Council of Standards Australia on 11 March 2022.

This Standard was published on 25 March 2022.

The following are represented on Committee EL-031:

Australian Digital and Telecommunications Industry Association
Australian Industry Group
Australian Security Industry Association
Engineers Australia
Fire Protection Association Australia
Insurance Council of Australia
New Zealand Security Association
NSW Police Force
Security Providers Association of Australia
South Australia Police
Victorian Security Institute

This Standard was issued in draft form for comment as DR AS 2201.2:2021.

# **Preface**

This Standard was prepared by the Standards Australia Committee EL-031, Alarm and electronic security systems, to supersede AS 2201.2:2004, *Intruder alarm systems, Part 2: Monitoring centres*.

The objective of this document is to specify requirements for the construction, equipment, staff and operation of centres used for the monitoring of client alarm and security systems. It also specifies a grading system for assessing the risk profiles of such centres. The grading system may act as a guide for customers of remote alarm monitoring services to choose the monitoring centre most suited to their needs.

The major changes in this edition are:

- (a) Inclusion of risk management processes.
- (b) Inclusion of IT policy management.
- (c) Updated maintenance considerations.
- (d) Reference to video surveillance systems (VSS) to replace closed-circuit television (CCTV).
- (e) Inclusion of new references to standards and other resources.

A list of all parts in the AS 2201 series can be found in the Standards Australia online catalogue.

The terms "normative" and "informative" are used in Standards to define the application of the appendices or annexes to which they apply. A "normative" appendix or annex is an integral part of a document, whereas an "informative' appendix or annex is only for information and guidance.

# **Contents**

Preface		ii
Section 1	Scope and general	1
1.1	Scope	1
1.2	Application	
1.3	Assessment period	
1.4	Normative references	
1.5	Terms and definitions	
1.6	New designs and innovations	
Section 2	Grading convention	4
2.1	General	
2.2	Grading format	
2.3	Gradings used in associated security standards	4
Section 3	Risk management and assessment	5
3.1	General	5
3.2	Functionality and services within the control of the monitoring centre	5
Section 4	Building services and construction	6
4.1	General	
4.2	Shell and sallyport construction	6
	4.2.1 All grades	6
	4.2.2 Construction materials	
4.3	Sallyport requirements	
4.4	Doors	
	4.4.1 All grades	
4 5	4.4.2 Locking mechanisms	
4.5	Windows	
16	4.5.1 All grades  Service duct penetrations	
4.6	4.6.1 Grades A and B	
	4.6.2 Grade C	
4.7	Amenities	
	4.7.1 Grades A and B	
	4.7.2 Grade C	
4.8	Airconditioning and ventilation	
	4.8.1 Grades A and B	9
	4.8.2 Grade C	9
4.9	Fire system	
	4.9.1 Smoke detection and alarm warnings	
	4.9.2 Fire extinguisher	
	4.9.3 Grade A 4.9.4 Grades B and C	
Section 5	Monitoring centre control and security	
5.1	Right of tenure	
5.2	Residential exclusions	
F 2	5.2.1 All grades	
5.3 5.4	Video surveillance system External area surveillance	
	5.4.1 Grades A and B	
	5.4.2 Grade C	
5.5	Monitoring centre shell surveillance	
3.3	5.5.1 Grade A	
	5.5.2 Grades B and C	
5.6	Monitoring centre shell access	
5.7	Monitoring centre alarm system	13

# Australian Standard®

# Alarm and electronic security systems

# Part 2: Monitoring centres

# **Section 1** Scope and general

#### 1.1 Scope

This document specifies requirements for the construction, equipment, staff and operation of centres used for the monitoring of client systems. It also specifies a grading system for assessing the risk profiles of monitoring centres. The grading system may act as a guide for customers of remote alarm monitoring services to choose the monitoring centre most suited to their needs.

NOTE A checklist to provide guidance for determining the grade of the monitoring centre is given in Appendix D.

# 1.2 Application

Throughout this document, where clause titles include the grading level, the clause applies to the stated grades.

Where the title does not include a grading level, the clause applies to all grades.

### 1.3 Assessment period

Assessment of a monitoring centre shall be conducted within the lease period of the monitoring centre premises or 24 months, whichever is the lesser.

#### 1.4 Normative references
